WELCOME LETTER

Dear Colleagues,

It is my pleasure to welcome you to the 2nd Educational Course for Chronic Total Occlusion in "Korgialenio - Benakio" Red Cross Hospital.

During these two days, together with excellent colleagues, we will try to introduce you to this wonderful world of Interventional Cardiology, which gives us the opportunity to achieve complete revascularization, but also to become better at dealing with all cases in the hemodynamic laboratory.

Live cases, presentations but mainly interaction between us will produce a hopefully really interesting result for all of us.

Hoping that this Course will become a regular institution and that colleagues from abroad will also participate, I would like to thank you for your participation, and I hope that we will meet your expectations.

Yours sincerely,

Ioannis Tsiafoutis

Director of the 2nd Cardiology Clinic,

"Korgialenio - Benakio" Red Cross Hospital
